

learn austria Project DON'T WASTE – CREATE

PROJECT PARTS

1. UPCYCLING:

create new and useful items from waste material, like handbags or shoppers from used clothes, kaftans/djellabias from curtains, shoppers from coffee- or petfood bags, etc etc

2. WATER:

my way to good drinking water/ how to save water

3. CORN IS NOT JUST CORN

describing and recognizing different types of corn like wheat, rye, millet, oats, maize and corn products , like flour, semolina, flakes – this includes activities like cooking and baking, and a recipe book

4. DON'T THROW FOOD AWAY – USE IT

useful ideas of how to buy, harvest and store food
Ideas for cooking with rests – a cookbook

5. WEEDS FOR HEALING DEEDS

get to know the wild plants of your surroundings (often despised as weeds) and how useful they are for cooking, but also their positive effect on our health

collecting herbs, using them fresh or dried, how to make mixtures for teas, herbal salts, pestos, and ointments or lotions for health and cosmetic

6. URBAN GARDENING

How can you grow vegetables and fruits in the middle of the city, even on pavement?

Planting ideas in recycling containers, systems that use minimum of water, possibilities with little or no soil

7. GARDEN TREASURES

Describing all kinds of fruit and vegetable, that grow in gardens, also wild growing ones, and their use in kitchen and medicine, but also methods of conserving and preserving them

8. MULTILINGUAL BOOKS

Books are down (slowly!) to each project part, with sketches, drawings or fotos, the main text in the language spoken at school and a table of 8 languages on the other part of the page.

Done by now "WATER – PRECIOUS LIKE A DIAMOND"

"CORN IS NOT JUST CORN" i

in planning:

- Baking and cooking with corn
- Cooking with rests
- Weeds for healing deeds
